What I consider to be the absolute best part of our ERASMUS project.

- Visiting schools, teachers, and students working in media in our neighboring countries.
- Establishing contact with ISFI.
- Skábmagovat.
- Students from different countries meeting.
- Students getting to know each other better by relocating to another country with a different language.
- Thanks to ERASMUS support, the financial possibilities for participants are able to complete their internships far from home through support for travel and accommodation near the internship site.
